EX-HIGHWAY COMMISSIONER IN DEMAND

KANSAS GOOD ROADS FEDERATION SENDS INVITATION, REQUESTING THAT HE ACCEPT A PLACE ON THE PROGRAM.

Former Highway Commissioner Colonel Sidney Suggs of this city, has received an invitation to meet with the Kansas Good Roads Federation which meets in Arkansas City, Kansas, on the 9th and 10th of December, and is requested to accept a place on the program. The letter of invitation is signed by Clarence B. Douglas, secretary of the Commercial Club of Arkansas City.

Mr. Suggs will be glad to accept the invitation, and while in that city he will be able to do some good work in getting Ardmore located on the road from Canada to the Gulf.

POLICE DEPT. CREDIT FOR EFFICIENCY

WARNING GIVEN TO HOBOES AND UNDESIRABLES TO KEEP AWAY SINCE EXPLOSION HAS BEEN ENFORCED.

The police department of the city, under Chief Hutchins, is entitled to a great deal of credit for the manner in which it handled the situation during the crisis through which the city has just passed.

As is usual in such cases, the day after the explosion, the city became infested with a gang of hoboos and other undesirables who thought to get away with something. With very few exceptions, every one of these were inside the city jail before they had been in town an hour and after working out a stiff fine on the city streets, were escorted to the city limits and told to hit the trail, and not return, under pain of greater punishment. The result was that very few depredations were committed.

Three individuals started to collect other people's valuables at the union depot, but two, who are accused of being implicated, are now in the county jail, where they will be given an opportunity of proving their innocence as soon as the county attorney can arrange for a preliminary hearing. The men deputized as special police were alert and kept all suspects away from the demolished buildings. Only one case where goods were stolen was reported to the officers, and the suspect is likewise behind the bars.

The expense attached to all this extra labor has kept the chief hustling to pay off the men with the police fund available, and it is doubtful if he will be able to do so, without outside help.

RECTOR KILLS WEALTHY MAN IN HIS HOUSE

SON OF PROMINENT RAILROAD MAN OF NEW ORLEANS SHOT TO DEATH BY RECTOR IN THE LATTER'S HOME.

New Orleans, La., Oct. 11.—Rev. Byron Holley, rector of a fashionable church here, early today shot and killed a young man in his home, who was later identified as Lansing Pearsoll, son of Norman G. Pearsoll, a prominent railroad man of this city.

The minister, in his report to the police, said he shot the young man because he found him in his house, thought he was a burglar, and that the man made a motion to draw a gun.

No reason for Pearsoll's presence in the rectory could be given by his parents. The family lives several blocks from the Holley home.

ARDMORE MAN HAS INTERESTS IN OREGON

MADE ONE FORTUNE OUT OF OIL AND MAY MAKE ANOTHER FROM NITRATE OF POTASH—STORY OF DISCOVERY.

C. E. Sykes, of the Coline and the Gates companies, who has already made a nice fortune out of the oil fields of southern Oklahoma, has recently made investments in Oregon, which may prove very profitable.

Near the town of Burns, in eastern Oregon, Mr. Sykes has purchased several mineral claims where nitrate of potash has been discovered. Geologists who have gone over the deposits there report that more than 40,000 acres are included in the mineral belt, that it is the largest mineral area in the United States. The Armours and the Guggenheims have purchased interests, and Claude Spreckels, the San Francisco sugar king, has invested two million dollars in the project.

For this mineral the world has been looking chiefly to Germany, but if the deposits prove to be what the best informed men believe, the world will be looking to the United States instead.

The deposits were found in rather a novel way. Two boys herding sheep in the early part of 1914 built a fire to warm their feet. Some of the nitrate was nearby and caught fire. The boys were puzzled and reported the incident to their father. The father immediately reported it to the government, and geologists from Washington were sent to make an investigation. All the reports are favorable, and some big investments have already been made.

Mr. Sykes sent from here today samples of the salts from his claim to the government for an analysis.

Decision Favors Employers.

Oklahoma City, Oct. 11.—The criminal court of appeals in deciding the case of A. J. Bemis from Oklahoma county, declared to be unconstitutional the statute of this state which makes it a misdemeanor for employers to contract not to join labor unions.

The opinion is by Judge Armstrong. He followed throughout the decision of the federal supreme court handed down in 1914 in a case from Kansas. The instant case was brought in 1911 by the county attorney of this county in the district court here, charging Bemis with coercing about 2,000 employes of the Oklahoma Railway company. The opinion holds that the rights of the employer to choose his employes are just as great as the rights of workmen to make rules for governing his work.

PACKERS' CONVENTION PLEADS RIGID INSPECTION OF MEATS

St. Louis, Oct. 11.—A plea for more rigid inspection of meats and for further co-operation with the department of agriculture, was made to the delegates to the tenth annual convention of the American Meat Packers' association by its president, John J. Folin, at the opening session here today.

"Don't blame the department of agriculture for all your troubles. It is doing a great work and doing it well," said President Folin, "and it can be your greatest help and best friend. It cannot extend its work without increased appropriations. Help it to obtain them by appeals to your congressmen."

"Losses sustained by the farmers through the foot and mouth disease, the president said, had been compensated, but the packers had been obliged to bear the full loss on diseased cattle condemned at the plants. "This is manifestly unfair," said Mr. Folin, "as the packers' losses were not sustained in the usual course of business, but as the result of an epidemic, and the animals were condemned for the public welfare. If the farmer is paid for the loss of his animals, the packer should be paid also."

The speaker declared that the packers should join in a movement which would result in the thorough cleansing of every insanitary farm to prevent the spread of epidemics.

London, Oct. 11.—The Austro-German forces, which have occupied Belgrade, are meeting with stubborn resistance at the Serbian advanced defenses, but have not yet come in contact with the Main Serbian forces. The Serbian campaign depends greatly on how much help they get from the allied troops. Dispatches from the Balkans reflect on the cheerful confidence in the ability of the allies to ultimately check the German invasion and successfully meet any attack from the Bulgarian side. The national danger, it is said, has united Serbia.

The German war office announces the attacks by the Austro-Germans invading Serbia, which is proceeding to the south of Belgrade. The crossing of the Danube by the invading forces has not yet been completed.

LAND OWNER DIES WHO OWNS FARM?

Medford, Oct. 11.—Relatives of C. N. West, if there are any, own a Grant county farm in Bluff township and some personal property, and are unaware of it.

Recently C. N. West, a bachelor, with no relatives, left his Bluff township farm for Illinois to visit friends and died while on the visit. He was about fifty years old and had talked very little about his personal affairs and the whereabouts of any relatives are unknown.

A petition for letters of administration with J. D. Bartlett as administrator has been filed in the county court. Unless the relatives are located, the estate escheats to the state.
